Office Action Summary	Application No. 10/067,671	Applicant(s) BRAAT ET AL.	
	Examiner Leslie Wong	Art Unit 1761	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Applicant's election with traverse of Group I, claims 1-10, in papers filed February 12, 2004 is acknowledged. The traversal is on the ground(s) that there is no burden. This is not found persuasive because the inventions are related as process and apparatus for its practice, and in this case the process as claimed can be practiced by another materially different apparatus and by hand.

The requirement is still deemed proper and is therefore made FINAL.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 3, 5, 8, and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 is indefinite as it is not clear whether sugar or a carbohydrate is claimed and parentheses are not allowed in the claims.

Claim 3 is indefinite as it is not clear what is encompassed by "HVP."

Claims 5 and 9 are indefinite as to "the aqueous solution" as there is no antecedent basis for this phrase.

Claim 8 is indefinite as it is not clear which temperature range is claimed.

Claim 9 is indefinite as to "next to the reactants a buffer solution" as it is not clear what is encompassed by this phrase.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Glacino (US Patent No. 3,519,437), Poiger et al (US Patent No. 4,194,017), Heyland et al (US Patent No. 4,879,130), and Ter Braak (US Patent No. 5,962,061).

Glacino teaches a process for preparing a flavoring mix comprising heating reactants with water as is claimed (see entire patent, especially claims 7 and 8).

Poiger et al teach a process for preparing a flavored base comprising heating reactants with water for 0.5 to 5 minutes to a temperature in the from 100° to 200° C as is claimed (see entire patent, especially the abstract and claim 1).

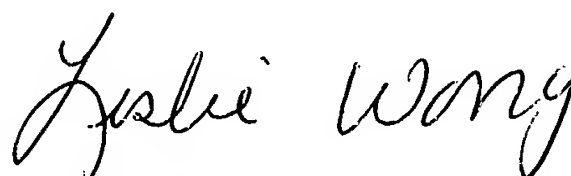

Heyland et al teach a process for preparing a flavoring agent comprising heating reactants with water for 30 seconds to 30 minutes at a temperature of 80° to 140° C as is claimed (see entire patent, especially claim 1).

Ter Braak teaches a process for preparing a flavoring mix comprising heating reactants with water as is claimed (see entire patent, especially claims 1-3).
